

Foodservice Solutions

INSPIRING TASTE FOR THE MODERN BEVERAGE MARKET

COFFEE & TEA: EXPERTISE & HIGH QUALITY TASTE

Synergy is a global manufacturer of flavorings, extracts, and essences, backed by Carbery Group and over 130 years of flavor development expertise. Our proprietary extraction technology and dedicated facility allow us to deliver authentic coffee and tea extracts with consistency, efficiency, and scalability.

PRECISION, CONSISTENCY & COMMERCIAL SCALE

Our dedicated extraction facility transforms raw botanicals into high-performance essences, extracts, and concentrates for beverage formulations including coffee, tea, RTD blends, and other formats fit for foodservice.

Explore more of our capabilities below.

ENGINEERED FOR PERFORMANCE

- Automated, validated process controls ensure consistent temperature, pressure & flow
- Predictable yields and reduced variation across batches
- Equipment redundancy and continuous-flow material handling increase throughput

BUILT FOR AGILITY & SCALE

- Modular design enables rapid changeovers
- Supports short runs and full commercial production
- Scales easily for volume growth and seasonal or limited-time offerings

QUALITY & RELIABILITY

- Standardized workflows minimize rework and deviation
- Integrated quality checkpoints at every stage
- Lead time improvements driven by stronger forecasting and increased manufacturing uptime
